

All the features and benefits you want...

HumanaOne Individual Health Plans

You get your choice of doctors and hospitals. Our large network of providers likely includes the same doctors, hospitals, and pharmacies you use now. Use in-network for lower rates, or choose out-of-network and still enjoy plan benefits at a reduced rate for covered services.*

You select the annual deductible that best fits your budget. The higher your deductible, the lower your premium.

You get the security of a rate guarantee. For the initial 12 months, as long as you keep the same benefits and stay in the same area.

You can select optional benefits. You may be able to choose to add dental coverage or add a supplemental accident benefit to your HumanaOne Individual Health Plan. (All optional benefits are available at an additional cost.)

You get a 10-day FREE look. Take the first 10 days to review your plan. If you're not completely happy, either call and cancel or return the plan to us within 10 days and get a full refund on your premium.

HUMANA one.

*Excludes HMO plans if applicable.

Look how low the premiums could be for the health insurance you need
