MOBILE APPLICATION

We are excited to announce the availability of our **Mobile Application** platform for the **Home Protector & Easy Term** products! The Mobile Application will be available for use beginning **Monday, Nov. 3, 2014**.

Here are a few highlights to interest you:

✓ Ensures applications are in good order:

- Eliminate incomplete applications & missing forms
- Reduce processing delays
- Accurate premium / death benefit calculations

✓ Functionality:

- Can be used with your iPad or similar device
- Agent friendly on-line application process
- Sign the app on the screen using a stylus pen, or simply by using your finger
- Partially completed applications can be saved to complete at a later time
- Attach & send images of supplemental documents such as void checks
- Transmit application and all related documents electronically at the click of a button
- A soft copy of the paperwork is available to save or print for your records
- Easy self-registration process – you can be ready to write an application in minutes

✓ Requirements:

- Designed for tablet devices
- Internet connection
- Face to face sale with the client

✓ Website:

- www.insuranceapplication.com/mobile
- Once you've accessed the site, please create a bookmark for future use

Separate notices will be sent out as additional life products become available on the mobile application platform
